

NW Boreal and North Pacific Landscape Conservation Cooperatives

Amanda Sesser – Coordinator NW Boreal LCC

Mary Mahaffy – Science Coordinator North Pacific LCC

**Ignite Session:
Land Management on the Kenai
Peninsula Forum
March 7, 2017**

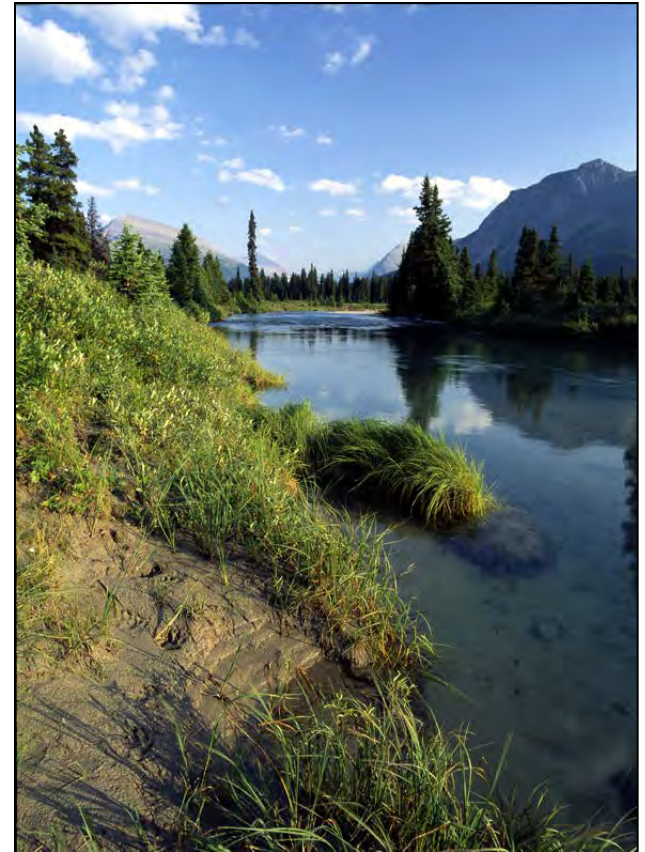

network

adapt to changing

What planning process or document are you sharing at this meeting?

- Planning for entire landscapes (cross jurisdiction)
 - Working across scales
- *Proactive* planning that anticipates future change
- Partnerships lead by states, Tribes/First Nations, federal agencies, NGOs

Land management priorities?

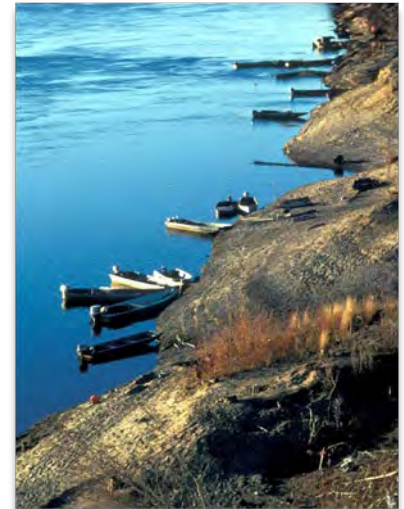

NPLCC Draft Science/TEK

Priorities:

- Terrestrial connectivity
- Aquatic connectivity
- Healthy and resilient coastal communities

NWB LCC

- Terrestrial/aquatic connectivity, intactness
- Biodiversity and ecosystem services
- Sustainable development

Opportunities and Barriers for Engagement and Leveraging Across Boundaries

- Working together we can do more than we can individually
- 6+ years in – partnerships are developed, building relationships and trust
- Limited budgets, limited time for landscape-scale work (meeting fatigue)

- Partners can join the Steering Committees, technical and communication teams, or be involved in local efforts

Needs

- What are the common goals that we can work towards? How do we collectively work towards them?
- Adaptive management – moving away from talk towards action
- Better developed future scenarios – land-use and climate change
- Working towards coordinated monitoring across 30 organizations in the NWB
 - Long-term database
